

profile

Antoine Fleury - Senior product designer Freelance

After a postgraduate in Industrial Design & CAD in 2003 with honours, and a master's degree in Mechanical Engineering (specialization industrial design) in Montpellier - France, I worked 6 years at Créatio, a design agency in Paris - France, as a product designer and mechanical engineer.

Since 2008, I have decided to use the experience in this domain to work as a freelancer and to express more of my creativity.

Today my skills and my professionalism have enable me to develop international cooperations and a network of industry partners.

skills and competencies

More than 10 years of experience in industrial and product design in a wide range of sectors:

Automotiv accessories / Sport equipment / Professionnal tools / Softgood product / Medical equipments / Audio systems.

Skilled in design researches by sketches, roughs and 2D vector views, CAD 3D development, realistic rendering, and mechanical engineering.
